Dear Breast Cancer Screening Survey Participant,

The American Association on Health and Disability (AAHD) is the recipient of a grant from the Susan G. Komen for the Cure entitled, "Project Accessibility: Removing Barriers for Women with Disabilities". The purpose of the grant is to increase accessibility of mammogram facilities in the DC Metro area. The project goals are to increase breast cancer screening among women with disabilities and women from various cultures.

As part of this project and to learn more about the barriers women with disabilities face in getting their mammograms, AAHD has developed a Breast Cancer Women's Survey to help gain a better understanding of what types of barriers are keeping women with disabilities from getting their mammograms.

If you are a woman with a disability and reside in Washington, DC or the surrounding Metro areas (District of Columbia, Alexandria City, or Prince George's, Fairfax, Loudon, Arlington or Prince William Counties), we would appreciate if you could take 5 minutes to complete our brief on-line survey. You will be helping AAHD and Susan G. Komen for the Cure learn more about barriers women with disabilities encounter when getting their mammograms and work towards changing policy so all women have access to quality mammogram screening.

Please visit <http://www.surveymonkey.com/s/G77ZLF3> to fill out the short survey.

Thank you for taking the time to complete this survey. Your participation is greatly appreciated. If you would like to learn more about this project and the American Association on Health and Disability, please visit www.aahd.us.

For further questions, or if you do not have a computer and would like to receive a paper copy of the survey to complete, please contact Janet Kreitman at jkreitman@aahd.us or call 301-545-6140 x203.
