

March 23, 2020

The Honorable Mitch McConnell
Majority Leader
U.S. Senate
Washington, DC 20515

The Honorable Charles Schumer
Minority Leader
U.S. Senate
Washington, DC 20515

The Honorable Nancy Pelosi
Speaker
U.S. House of Representatives
Washington, DC 20515

The Honorable Kevin McCarthy
Minority Leader
U.S. House of Representatives
Washington, DC 20515

Dear Leaders McConnell and Schumer and Speaker Pelosi and Leader McCarthy,

The COVID-19 pandemic occurring in the United States should be of utmost concern to every lawmaker in the country. We are grateful to the Senate for their leadership as they work to craft and pass the third package of coronavirus-related relief. The undersigned Disability, Civil Rights, Health and Faith-Based organizations write with the following priorities that must be included in the legislation being considered around COVID-19. People with disabilities are, and will be, particularly at risk as COVID-19 spreads across the country, facing high risk of complications and death if exposed to the outbreak and needing to isolate themselves for protection. We urge Congress to focus on people with disabilities, regardless of immigration status, and their needs in legislation in response to the outbreak.

The following represents a non-exhaustive list of the needs that must be addressed for people with disabilities, their families, and the workforce that supports them:

Economic Stimulus and Increased Asset Limits and Benefits

- Economic stimulus should be easily and equitably available to low-income individuals and asset limits for people with disabilities and older adults in Supplemental Security Income, Medicaid, SNAP, and other means tested programs should be eliminated or raised so these crucial benefits will not be a risk from the stimulus.
- Social Security and Supplemental Security Income benefits should be boosted for the duration of the epidemic to help people with disabilities afford the increased costs of health care supplies and medically necessary isolation.

Home and Community-Based Services (HCBS) in Medicaid

- Increase FMAP match beyond the 6.2 bump to ensure that Medicaid and state governments have the resources they need to ensure care for people with disabilities.
- Pass the [Corona Virus Relief for Seniors and People with Disabilities](#), including its HCBS grants to support Direct Support Professional (DSP) and Home Health Workforce and to support aging adults and people with disabilities in their homes and communities.

- Pass the Ensuring Direct Access to Direct Support Professionals Act (S. 3220/H.R. 5443).
- Make the Money Follows the Person (MFP) program permanent.

Housing

- Immediately provide an increase in McKinney-Vento Emergency Solutions Grants.
- Pass legislation to stop evictions to prevent homelessness during the pandemic, including the Eviction Crisis Act.
- Increase funding for the National Housing Trust Fund, the Section 8 Housing Choice Voucher program, the Section 811 Supportive Housing for Persons with Disabilities program, the HOME Investment Partnerships program, and the Community Development Block Grant program and increase funding for Department of Agriculture housing programs.

Medication/Treatment

- Ensure that all testing and treatment for COVID-19 are provided at no cost for all individuals whether insured or not. The Families First Coronavirus Response Act focuses on testing, not treatment.
- Ensure that individuals can access medication and supplies refills for 90 days from all payers, including allowances for partial fills and controlled substances, without cost sharing and with financial assistance to allow for self-isolation for at-risk people with disabilities.
- Ensure that service providers have access to the necessary training, equipment and medical supplies. There must also be assurance of sufficient production of medications to meet a higher volume of needs during this time.
- Ventilator and PPE Production: Congress must appropriate funds specifically for ramping up production of both Personal Protective Equipment and ventilator production. The Secretary of Health and Human Services should be given authority to expedite bringing new production facilities online and do everything possible to mobilize a “whole-of-country” response to meet these production challenges.

Paid Leave/Sick

- Ensure paid sick days and paid leave provisions include caregivers who can't work because they are caring for an adult or a child with a disability or aging family member whose program has closed or care worker is sick. This was not included in the Families First Coronavirus Response Act.

Rights

- Provide states with resources they need to ensure that even during this crisis, people with disabilities have the supports they need to remain in the community and are not forced into institutional or other congregate settings in violation of their civil rights under the Americans with Disabilities Act (ADA) and the

Supreme Court's decision in *Olmstead v. L.C.*, and at increased risk to their health.

- Ensure the rights of individuals with disabilities and older adults, to be free from discrimination on the basis of disability or age in programs and activities, are protected during all phases of disaster preparation, response, recovery, and mitigation.
- Congress should require HHS to issue guidance regarding rationing of care to ensure that when rationing treatment begins, decisions about how medical treatment should be allocated are made without discriminating based on disability. The National Council on Disability has already raised concerns about this issue in [a letter](#) to HHS' Office of Civil Rights.
- Do not allow any weakening of the protections of the ADA for businesses or in the building of new facilities if necessary.
- Provide additional funding to states to ensure accessible voting as states are moving to absentee and mail-in voting.

School/Education

- Ensure that any legislation to support access to virtual education and other supports are inclusive of the unique needs of people with disabilities, including requirements under the Individuals with Disabilities Education Act.

We know that we must act now to prevent much of the worst impact of this outbreak. We urge the Congress to act quickly so that the rights of people with disabilities are recognized in this crisis.

Sincerely,

AADD (Alaska Association on Developmental Disabilities)
